

MaxiDry[®] PLUS[™]

proRange[®]

MaxiDry[®] Plus[™] is designed and developed for those working with chemicals requiring good levels of protection and is certified as a Type B product according to EN ISO 374:2016 + A1:2018.

TECHNOLOGIES INSIDE

For protection against oils, liquids and chemicals
Liquid repellence - we have increased resistance to oils via our LIQUItch[®] technology platform.

For reduced hand fatigue
Ultra lightweight - synthetic coating combined with an industry leading super light seamless knit liner provides excellent comfort, sensitivity, fit and dexterity.

Locking cuff - ensures the glove doesn't slip on the hand: an exclusive elasticated support in the wrist area provides a "locking" effect for a close and snug fit.

For better performance
Our micro-cup non-slip grip finish allows for a controlled and superior grip in oily and wet applications. The nonslip grip is only applied where it is actually needed - in the palm area - to ensure flexibility isn't compromised. GRIPtech[®] decreases hand fatigue and increases safety.

CLEANLINESS GUARANTEED

We use our HandCare[®] Program for every single ATG[®] product. Not only do we make certain that all the elements used in our manufacturing process are safe for our employees, we also wash all the gloves after the production process as a further step in ensuring cleanliness. During this laundering process, we prefer the use of water that is rain-harvested, treated and continually recycled from our own water treatment facilities.

This enables us to guarantee our gloves to be "Fresh out of the pack" which is certified by Oeko-Tex[®] according to Standard 100. We do not use any SVHC during our manufacturing process.

And if that wasn't enough our gloves are also dermatologically accredited by the Skin Health Alliance. The Skin Health Alliance seal gives, for the first time in the safety industry, professional glove users the confidence that ATG[®]'s full range of gloves are "dermatologically safe" and the science and research behind them is robust.

More information about HandCare[®] by ATG[®] is available at www.atg-glovesolutions.com.

Length	30 cm
EN 388:2016 + A1:2018	 4121A
EN ISO 374-1:2016 + A1:2018	 JKL
EN ISO 374-5:2016	 Yes
Silicone free	Yes

ALSO AVAILABLE IN THE MAXIDRY[®] RANGE

MaxiDry[®]

People have been asking us to make an **oil repellent** MaxiFlex[®] that's still super thin, flexible, dexterous and comfortable. So we did and it's called MaxiDry[®].

MaxiDry[®] Zero[™]

MaxiDry[®] Zero[™] incorporates the core values of the MaxiDry[®] brand and is ideal for working inside or outside in **cold environments**.

Where to use:

MAXIDRY[®] PLUS[™] IS DESIGNED FOR USE IN OILY, WET ENVIRONMENTS AND/OR LOW LEVEL OF CHEMICAL RESISTANCE APPLICATIONS.
